

10 TIPS FOR USING COSMETIC PRODUCTS SAFELY

People use cosmetics to keep clean and enhance their beauty. It's important to use these products safely:

1. Always read and follow the instructions
2. Always check the ingredient list
3. Always perform a patch test
4. If you notice adverse symptoms like itching or burning while using a product, immediately remove it and seek medical advice.
5. Be wary of purchasing products via third party sellers particularly online
6. Familiarise yourself with product labels
7. Generally it is advised to not share cosmetic products to prevent the spread of bacteria and contamination of your products
8. Jars and containers should be kept tightly closed after use to prevent contamination
9. Applicators/makeup brushes should be thoroughly cleaned or replaced on a regular basis to prevent the spread of bacteria
10. Have regular clear-outs of cosmetics and throw away any products that have a bad odour or display a change in colour
